### Easter in March

**Easter Celebration in March**    Good Friday March 29  
Easter Sunday March 31

As Metaphysical Christians, this is the one event of the year when we can feel the great love Jesus Christ had for humanity and the wonder of the connection he brought to us. In his life and through his ascension, he created a pathway for us to feel the Father’s love as he did. He opened our hearts to the eternal nature of our Oneness with God and said, “Follow Me”.

This year, on Good Friday, we will once again offer our Spiritual Communion service. There is a mystical connection that occurs as we follow the teachings of Jesus. “This do in Remembrance of Me”. During this ceremony, our sanctuary is filled with humans, but it is also filled with celestial beings bringing in the higher vibration of God’s love for us all. The energy is undeniable and the blessings are immense. We will begin at 12 noon and usually have our service complete by 12:30 to 12:40pm. We will stay in private meditation until 1pm, however, all participants may leave during this meditation as they are guided. The church will be closed for the remainder of the day. The energy is so high, it is a beautiful first step to our Easter Celebration.

Easter Service– With humble hearts, we join together to celebrate the greatest gift mankind could receive. Jesus Christ came, taught us how to live as God’s children, and then took our love back to the Father’s house where he create a space for all. The Spiritual union with our Father Mother God was now freely accessible to all.. We know we are Children of God. Join us as we open the channel to receive a greater blessing of God’s love and Light!

### Inner Quest Pot Luck & Congregational Meeting Sunday April 21, 2024

Immediately following the Sunday Service on April 21, we will gather in the Pavilion and on the grounds to celebrate our church with a Pot Luck! Please plan on coming and bringing a dish to share. After we have feasted, we will be having our Annual Congregational Meeting for all of our members. It is important that we join our energies as we create an enlightened path forward for our church. We will review goals, discuss new insights and create a new trajectory for our vision of how we want to present our beliefs to the world.

We will also be presenting reports from all of our departments so that you can be informed of the Journey of 2023 and the Dreams of 2024.

Please mark your calendars so that you can attend. Everyone is invited to the Pot Luck, however, the meeting is for members only.

We also plan on having someone to watch the children so that all of you parents can enjoy the collective synergy of planning our future!

God is in Charge!!!

**Communion**

When the heart truly opens to the Christ blessing, the Christ love, our awareness can be drawn beyond the veils of illusion that cling so strongly to the physical life.

It is in this awareness of brotherhood in the greater life of the spirit that we realize that we are fed by that light which sustains all physical life; which sustains the whole. The bread is a symbol of his cosmic body which is everywhere and for every to take and eat thereof when they are in the spirit– or in the higher consciousness.

The secret of all lies in the Christ Sprit in the heart, and it is the purpose of communion to stimulate the Christ-consciousness in man.....

***“My cosmic body;” he says, “take it; eat; be at one with me. Sip from my cup the divine essence, divine love. Be love, even as I am love. Give love, and know the true peace of heaven. Peace...***

Join us at our Good Friday Communion service. 12:00-12:30ish. Open your heart for a greater blessing of God Love.

# Thoughts of the Ministers

## New Vision

Metaphysically we define consciousness as our functioning level of awareness. Functioning is the operative energy.

The age we live in is sometimes called the information age. We are exposed to countless bits of information daily, bombarded some might say. An interesting fact about information is that it is only useful if we use it. These are exciting times, changing times, and I don't think that it's an accident that we are receiving all this information. Perhaps if used, this information could help us navigate and transcend the challenges we are now facing. We are being asked to function at a higher level of awareness.

This age is also about "Spiritual Awakening". We are all waking up to the awareness that we are spirit. We have the opportunity to see ourself from a different perspective. Our true journey begins when we function from this level of awareness.

We used to think we were the center of the universe, now we are aware that we are all just a speck of light, in a universe, also a speck of light, in the multiverse. We used to believe in separation and now we are aware of the oneness of creation and that we are affected by, as well as, affect creation! We are aware of the influence of planets, stars and suns—what influence do you think We have on these? With this expanded awareness how unlimited is our potential to be co-creators? (New Vision)

Our true essence is integral. We are ever evolving spirit as life, in life, and our journey is eternal. A new vision of self is revealed as we step into the consciousness of life and live in this awareness.

Our first step is to be grounded in the knowing we are spirit, one with all. Next we must let go of all that we assumed to be truth and then open to the ever expanding consciousness of life—the true teacher.

We are all the proverbial "Diamond in the Rough" and it is time for us to take this time to refine ourself. As we let go of the old patterns, beliefs and identity that are out of tune for these times, we will become more aware of our true self. We will get to know self, and our unique gift to life. Through the refining, our light will begin to shine brighter and brighter revealing the truth "I AM".

We are ushering in the Age of Light!

Peace,  
Patrick

## Sunday Services

As most of you know, I was guided to take a break during the month of February to allow our other ministers the opportunity to do Sunday Services. And it was amazing.

Because of my eye healing, I have to sit in the back of the sanctuary during the messages. During Patrick's last service, I sat between three beautiful and powerful ladies. As he shared, we were all moved. I could feel my heart opening and a radiation of love moving from me. But what was amazing, I could feel the radiant heart lights coming from the three ladies that surrounded me. It was almost overwhelming—the love, the inspiration and the dedication that was felt in that energy. What a blessing, I normally would not experience.

During Cheryl's service about relationships, she took us to our parents, as our first relationship. I was again, deeply moved and sent love to my own family. I was reminded about the truth, "I could have come to where I stand by no other path." The healing energy was amazing.

In Charmayne's service on Giving and Receiving, I thought I did pretty good in this area, until the meditation. As she directed us to look out on the waters and see all of the good the Universe was bringing to us, I was shocked at all of the good that was headed my way. I cried as I saw the immense energy that God is returning to me. I am humbled and ready to receive.

And then when David spoke, all of my world came crashing down as I realized that I had been walking the Unknown for the past two years. I had never given up my faith in God, but I had certainly waned in my faith in myself. As he spoke of faith and courage, I realized that my courage needed to turn on again! It was time for me to heal. In spite of the human experiences I had been through these past two years, I was in God's care, even when I couldn't see it. That Sunday, I remembered who I was. I am God's Daughter and He Flows Through Me. I now have Faith in God and I now ask for the Courage to keep moving in that faith, even when I cannot see the next step. I now can access the courage to know that that next step is there.

These past few weeks are amazing.

I am in my perfect place loving all those around me.

I am receiving all of the Good the Universe is bringing me.

I can walk this Unknown in Courage and Faith.  
We can share our heart lights with each other as we simply love.

Thank you Father/Mother God for an awesome Break!

Much love to all,  
Cindy

## A Child's Wisdom

Our dear church family member, Haley, knew her grandmother would soon depart the Earth plane. She was beginning to process how best to explain it to her three year old daughter, Gisele. Gisele was aware that her great-grandmother, affectionately known as Gigi, was in the hospital.

One afternoon Gisele asked Haley about Gigi, and Haley explained that she was still in the hospital. In that moment, Haley was thinking about how to share with Gisele what was imminent for her beloved Gigi. In the midst of that quiet, contemplative silence Gisele said, "Gigi is going to be with God. Don't worry, Mommy, she is in your heart."

Edie Nichols (Gigi) crossed on February 24, 2024, one day after her 92nd birthday. Gisele was correct. Gigi is most definitely in our hearts
